TimeMist

A TimeMist® Programmable Metered Nonaerosol Dispenser

The first talking metered dispenser features a voice message reminder to "Please change the refill" in English and Spanish. Plus, audio (beeps) and visual (LED) signals provide refill and battery replacement alerts. Use programmable start/stop times and fragrance level or the auto default mode, which sets the dispenser for a medium spray every 15 minutes, 24 hours a day, for 30 days. Runs for up to two years on two D alkaline batteries (not incl.). Includes wall mounting screws. Uses fragrance refills TMS 3107, TMS 3110 or TMS 3111 (sold separately). VOC Compliant in all states. White. 5 $\frac{1}{2}$ w x 2 $\frac{3}{4}$ d x 7 $\frac{1}{2}$ h.

FYI

Most paints, coatings, inks, solvents and adhesives contain contaminants and air pollutants called Volatile Organic Compounds (VOC). VOCs include a variety of chemicals, some which may have adverse health effects. Concentrations of many VOCs are higher indoors than outdoors.

Businesses using any of these materials are required by the South Coast Air Quality Management District (AQMD) to keep records indicating the name and manufacturer of the specific products, the VOC content of each product, and the quantity used each day. New forms have been developed for recording this information based on whether your permit contains daily or monthly VOC limits and the type of business you operate.
